

COMSATS University Islamabad Lahore Campus

Quiz #1 of Web Technologies, SP26, Apr, 9, 2026 [10 Marks]

Reg. ID, Name, Section _____, _____, B

Question 1: CLO 2: <Demonstrate the capabilities for developing professional front-end using client-side technologies.>

Question 1.1 (5 Marks): Create an HTML form that submits via **POST** to **/register-student**. The form must include a hidden field **city_id** with value **10**, and three course options displayed as checkboxes where each course title is shown as the label and its course code is used as the value. Ensure that the first two courses are selected by default, and include a submit button to submit the form.

Question 1.2 (5 Marks): Write CSS using a mobile-first approach for the classes **container**, **item1**, and **item2** such that on devices below 600px, **item1** and **item2** occupy 25% and 75% width respectively, while on devices 600px and above, both take equal width of 50% each.

```
<div class="container">
  <div class="item1">abc</div>
  <div class="item2">abc xyz</div>
</div>
```

(Use backside of this page to answer)
